Earth Week

It is very important for children to learn about our Earth and all the benefits we receive from and through it. One of the most amazing wonders about our planet is the fact that it sustains life as we know it because of its fine-tuning factor. No other planet in our solar system possesses such unique characteristic. That's more than enough reason to celebrate and to pass on to our children how to be good stewards of our amazing home we call Earth. Our Earth day related activities will take place during the week of April 22nd – 26th. Free dress will apply during this whole week. Please be on the lookout for further details pertaining to the various events taking place in each classroom.

Parent/Teacher Conferences

The second semester Parent/Teacher Conferences are scheduled for May 2nd and 3rd. The conferences will take place for all grade levels (from the "Nido" to Upper Elementary).

Please reach out to the front office to schedule the conference with your child's teacher.

No school will take place on the dates mentioned above.

Note to parents of 6th grade students: Since your child is graduating next month, Mrs. Portillo is not requiring a PTC. If you wish for the conference to take place, please reach out to the front office to schedule one.
